Editorial:

Now that the criteria for censorship has been explained quite vaguely and inadequately, we've received an increased amount of literary material. However, we're still waiting for people like McFADDEN, FOLLINGTON and LONG. If we may remind you of one point - it's much easier to destroy than it is to build and at the moment we're building.

MURRAY POUSTIE'S Farewell.

BILL THOMAS stole the show with his "Round Bar" - fine piece of carpentry and everybody seemed to be gayly trying it on for size. To finish on a bright note - as you read this our MURRAY is "Roughing It" in Australia.

Lost and Found Dept.

Found - one Radar Sargent, answers to the name of "DOC", found on the road from VUNG TAU. Bravo Radar has claimed him although nobody seems to really remember where he belongs.

Orange Blossom Time.

"We're newly weds and we'd like a suite", said the groom to the hotel clerk.

"Bridal"? Inquired the clerk.

"Oh no"! blurted the bride "I'll just hang onto his ears until I get used to it".

Birthday Call.

BOB "WOOFER" BRUCE of 31C fame celebrated his birthday last Sunday.

Special Request:- Don't bother sending gifts, he's managed to gather them himself over the past 14 months.

Entertainment Scene.

"Locaters' Lounge", NUI DAT'S newest disco opens soon. The atmosphere and decor plus a great line up of international artists will make it the "IN" place for Saturday night.

N.B. Beautiful GO-GO Girls will keep you frugging all night while the bare-top waitresses attend to your lubrication.

For reservations and party bookings ring TAC lines thru the Location Switch.

Letters to the Editor.

Despite the fact that Route 2 has many deep gouges, the trio of DART, KING and BONSER have been trying desperately hard to prove that the speed comment in the edition before last is not impossible.

BRAVO 3, the fastest racer in 1 ATF, is just about due for another 12,000 mile service and is at present resting over at BRAVO Pad.

We have come to the conclusion that you are right, it cannot be done, but we sure tried!

MERV DART.

Problem.

Specially selected for "Bleary-eyed BONSER".

In a cellar there are 6 full barrels with respective capacities of 8 gals, 13 gals, 15 Gals, 17 gals, 19 gals and 31 gals and each barrel contains either wine or beer.

The price of wine is twice that of beer. A merchant buys \$112 worth of wine and \$112 worth of beer and finds that he has bought all the barrels except one. Which one is left behind? How many gallons of beer and wine does he buy and how much does he pay for each?

Battery Funds Report.

Suggested designs for the Battery shield will still be accepted until Sat 19th whereupon all designs will be displayed to the Battery for a final selection.

In conjunction with the design, suggestions are also required on a name for the club (has to be original and printable).
